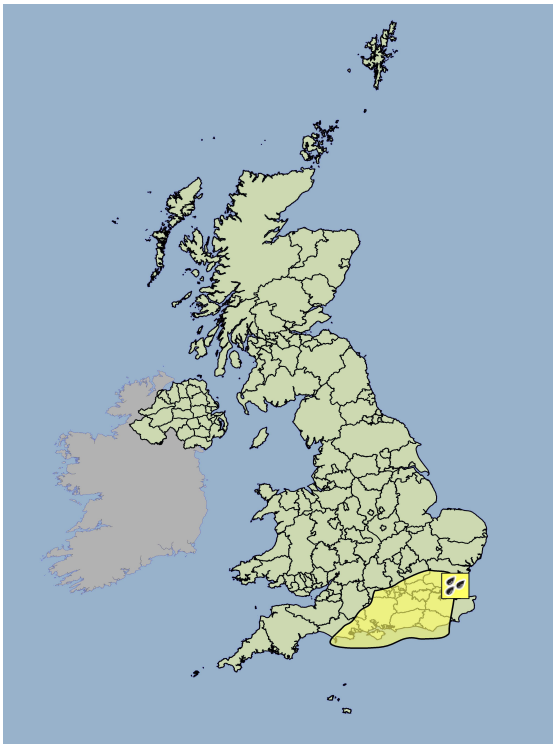
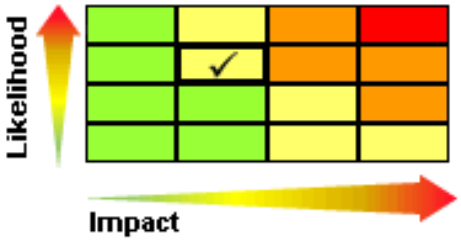
National Severe Weather Warning Service





Chief Forecasters Assessment
An unstable airmass across the south-east of England and with another very warm day expected, coupled with high humidity, some heavy showers or thunderstorms are likely to develop this afternoon within the warning area. As is always the case with showers, some places may see no rainfall at all, whilst others receive 20 mm or more in an hour. Hail and thunder may be an additional hazard. Showers will gradually die out this evening as temperatures decrease.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **12:00 on Fri, 25th Jul 2014** until **21:00 on Fri, 25th Jul 2014**

Heavy showers or thunderstorms are expected to develop locally this afternoon. Some torrential downpours are possible, these accompanied by hail and thunder. Showers and thunderstorms will die out this evening.

Some surface water flooding is possible in association with these storms. As such, the public should be aware of the potential for disruption to transport.
